

Nova Market

Nayax

Drive your business with a fast and intuitive checkout process!

Nayax's customizable self-checkout solution gives you the flexibility to adapt your business to ever-changing demands. Today's consumers not only want greater variety, they also want to examine products and read nutrition information before making their purchase decision.

Nova Market is a self-checkout kiosk that lets your consumers purchase products independently while reducing their waiting time and increasing your operational efficiency. Nova Market is ideal for Micro Markets and other self-served businesses providing a fast and intuitive checkout process for any number of products and services. Combined with NayaxVend management platform and marketing tools, Nova Market drives sales, optimizes operational costs, and increases your consumers' satisfaction.
